LAFAYETTE CHARTER SCHOOL POLICY No. 5.5.7 STUDENT TRANSPORTATION AND SCHOOL BUS SAFETY

I. PURPOSE

The purpose of this policy is to establish expectations and policies concerning the safe transportation of Lafayette Charter School students to and from school.

II. POLICY STATEMENT

It is the policy of Lafayette Charter School to comply with state law regarding student transportation and school bus safety.

III. GENERAL EXPECTATIONS

Transportation by school bus is a privilege not a right for an eligible student. A student's eligibility to ride a school bus may be revoked for a violation of school bus safety or conduct policies, or for violation of any other law governing student conduct on a school bus. Revocation of a student's bus riding privilege is not an exclusion, expulsion, or suspension under the Pupil Fair Dismissal Act. For a student who is an individual with a disability under the Individuals with Disabilities Education Act, United States Code, title 20, section 1400 et seq., Section 504 of the Rehabilitation Act of 1973, United States Code, title 29, section 794, and the Americans with Disabilities Act, Public Law 101-336, revocation of the student's eligibility to ride the school bus must be consistent with the requirements of those laws.

IV. TRANSPORTATION ELECTION/OPTION

Lafayette Charter School may, but is not required to, provide transportation to students. Each year Lafayette Charter School will notify the district in which the school is located and the Department of Education if it will provide its own transportation or use the transportation services of the district in which it is located. At the time a student enrolls in Lafayette Charter School, the school must provide the parent with information regarding the transportation.

If Lafayette Charter School elects to provide transportation for its students, the transportation will be provided within the geographic boundaries of the district in which Lafayette Charter School is located. For students who reside outside the geographic boundaries of the district in which Lafayette Charter School is located, Lafayette Charter School is not required to provide or pay for transportation between the student's residence and the border of the district in which Lafayette Charter School is located. A parent may be reimbursed by Lafayette Charter School for the costs of transportation

from the student's residence to the border of the district in which Lafayette Charter School is located if the student is from a family whose income is at or below the poverty level, as determined by the federal government. The reimbursement may not exceed the student's actual cost of transportation or 15 cents per mile traveled, whichever is less. Reimbursement may not be paid for more than 250 miles per week.

If Lafayette Charter School does not elect to provide transportation, transportation for students enrolled at Lafayette Charter School will be provided by the district in which the Lafayette Charter School is located, according to Minnesota Statutes sections 123B.88, subdivision 6, and 124D.03, subdivision 8. If the district provides the transportation, the scheduling of routes, manner and method of transportation, control and discipline of the pupils, and any other matter relating to the transportation of pupils shall be within the sole discretion, control, and management of the district.
